

Energy Performance Certificate (EPC)

Scotland

Dwellings

UPPER BRANDSMYRES, BANCHORY DEVENICK, ABERDEEN, AB12 5XQ

Dwelling type: Detached house
Date of assessment: 15 May 2023
Date of certificate: 18 May 2023
Total floor area: 316 m²
Primary Energy Indicator: 178 kWh/m²/year

Reference number: 2400-1351-0222-5199-1573
Type of assessment: RdSAP, existing dwelling
Approved Organisation: Elmhurst
Main heating and fuel: Boiler and radiators, LPG

You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO₂ emissions by improving your home

Estimated energy costs for your home for 3 years*	£14,628	See your recommendations report for more information
Over 3 years you could save*	£2,823	

* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band E (47)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Environmental Impact (CO₂) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band D (64)**. The average rating for EPCs in Scotland is **band D (59)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Internal or external wall insulation	£4,000 - £14,000	£1362.00
2 Floor insulation (solid floor)	£4,000 - £6,000	£573.00
3 Low energy lighting	£200	£678.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Solid brick, as built, no insulation (assumed)	★★☆☆☆	★★☆☆☆
	Timber frame, as built, insulated (assumed)	★★★★★	★★★★★
	Granite or whinstone, as built, insulated (assumed)	★★★★★	★★★★★
Roof	Pitched, 150 mm loft insulation	★★★★☆	★★★★☆
	Roof room(s), insulated	★★★★☆	★★★★☆
	Roof room(s), insulated (assumed)	★★★★☆	★★★★☆
Floor	Solid, no insulation (assumed)	—	—
	Solid, insulated (assumed)	—	—
Windows	Fully double glazed	★★★☆☆	★★★☆☆
Main heating	Boiler and radiators, LPG	★★☆☆☆	★★★☆☆
Main heating controls	Programmer, room thermostat and TRVs	★★★★☆	★★★★☆
Secondary heating	Room heaters, wood logs	—	—
Hot water	From main system	★★☆☆☆	★★★★☆
Lighting	Low energy lighting in 9% of fixed outlets	★☆☆☆☆	★☆☆☆☆

The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO₂ emissions, running costs and the savings possible from making improvements.

The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 34 kg CO₂/m²/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 11 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 4.9 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£12,021 over 3 years	£10,203 over 3 years	
Hot water	£939 over 3 years	£729 over 3 years	
Lighting	£1,668 over 3 years	£873 over 3 years	
Totals	£14,628	£11,805	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures	Indicative cost	Typical saving per year	Rating after improvement	
			Energy	Environment
1 Internal or external wall insulation	£4,000 - £14,000	£454		
2 Floor insulation (solid floor)	£4,000 - £6,000	£191		
3 Low energy lighting for all fixed outlets	£200	£226		
4 Solar water heating	£4,000 - £6,000	£70		
5 Solar photovoltaic panels, 2.5 kWp	£3,500 - £5,500	£623		
6 Wind turbine	£15,000 - £25,000	£1318		

Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to www.greenerscotland.org.

About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

1 Internal or external wall insulation

Internal or external wall insulation involves adding a layer of insulation to either the inside or the outside surface of the external walls, which reduces heat loss and lowers fuel bills. As it is more expensive than cavity wall insulation it is only recommended for walls without a cavity, or where for technical reasons a cavity cannot be filled. Internal insulation, known as dry-lining, is where a layer of insulation is fixed to the inside surface of external walls; this type of insulation is best applied when rooms require redecorating. External solid wall insulation is the application of an insulant and a weather-protective finish to the outside of the wall. This may improve the look of the home, particularly where existing brickwork or rendering is poor, and will provide long-lasting weather protection. Further information can be obtained from the National Insulation Association (www.nationalinsulationassociation.org.uk). It should be noted that a building warrant is required for the installation of external wall insulation. Planning permission may also be required and that building regulations apply to external insulation so it is best to check with your local authority on both issues.

2 Floor insulation (solid floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Insulating solid floors can present challenges; insulation laid on top of existing solid floors may impact on existing doors and finishes whilst lifting of a solid floor to insert insulation below will require consideration of the potential effect on both structural stability and damp proofing. It is advised to seek advice from a Chartered Structural Engineer or a registered Architect about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work and may also require a building warrant so it is best to check with your local authority building standards department.

3 Low energy lighting

Replacement of traditional light bulbs with energy saving bulbs will reduce lighting costs over the lifetime of the bulb, and they last many times longer than ordinary light bulbs. Low energy lamps and fittings are now commonplace and readily available. Information on energy efficiency lighting can be found from a wide range of organisations, including the Energy Saving Trust (<http://www.energysavingtrust.org.uk/home-energy-efficiency/lighting>).

4 Solar water heating

A solar water heating panel, usually fixed to the roof, uses the sun to pre-heat the hot water supply. This can significantly reduce the demand on the heating system to provide hot water and hence save fuel and money. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. You could be eligible for Renewable Heat Incentive payments which could appreciably increase the savings beyond those shown on your EPC, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

5 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

6 Wind turbine

A wind turbine provides electricity from wind energy. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Wind turbines are not suitable for all properties. The system's effectiveness depends on local wind speeds and the presence of nearby obstructions, and a site survey should be undertaken by an accredited installer. Planning permission might be required and building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for a wind turbine, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

LZC energy sources present:

- Biomass secondary heating

Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit <https://energysavingtrust.org.uk/energy-at-home> for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	37,768	(250)	N/A	(4,421)
Water heating (kWh per year)	3,157			

Addendum

This dwelling has stone walls and so requires further investigation to establish whether these walls are of cavity construction and to determine which type of wall insulation is best suited.

About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst (www.elmhurstenergy.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name:	Mr. Darroch Robertson
Assessor membership number:	EES/009448
Company name/trading name:	Graham & Sibbald
Address:	21 Carden Place Aberdeen AB10 1UQ
Phone number:	01224 625024
Email address:	aberdeen@g-s.co.uk
Related party disclosure:	No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

Advice and support to improve this property

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit [greener-scotland.org](https://www.greener-scotland.org) or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

property questionnaire

Property address	Upper Brandmyres Farmhouse Banchory-Devenick Aberdeenshire AB12 5XQ
-------------------------	--

Seller(s)	Mr & Mrs Murdoch
------------------	-----------------------------

Completion date of property questionnaire	21/05/2023
--	-------------------

GRAHAM + SIBBALD

property questionnaire

Note for sellers

- Please complete this form carefully. It is important that your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the date of entry for the sale of your house, tell your solicitor or estate agent immediately.

Information to be given to prospective buyer(s)

1.	Length of ownership	
	How long have you owned the property? 23 years	
2.	Council tax	
	Which Council Tax band is your property in? F	
3.	Parking	
	What are the arrangements for parking at your property? (Please tick all that apply)	
	<ul style="list-style-type: none">• Garage• Allocated parking space• Driveway• Shared parking• On street• Resident permit• Metered parking• Other (please specify):	Yes Double Car Port
4.	Conservation area	
	Is your property in a designated Conservation Area (that is an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?	No

property questionnaire

5.	Listed buildings	
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?	No
6.	Alterations/additions/extensions	
a.	<p>(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?</p> <p><u>If you have answered yes</u>, please describe below the changes which you have made:</p> <p>Extension to add study, bedroom with en-suite and porch on ground floor, and bedroom and bathroom on first floor including installation of new stair</p>	Yes
	<p>(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?</p> <p>If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.</p> <p>If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them:</p>	Yes
b.	<p>Have you had replacement windows, doors, patio doors or double glazing installed in your property?</p> <p><u>If you have answered yes</u>, please answer the three questions below:</p>	No
	(i) Were the replacements the same shape and type as the ones you replaced?	No
	(ii) Did this work involve any changes to the window or door openings?	No
	<p>(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed):</p> <p>Please give any guarantees which you received for this work to your solicitor or estate agent.</p>	

property questionnaire

7.	Central heating	
a.	<p>Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of the property – the main living room, the bedroom(s), the hall and the bathroom). <u>If you have answered yes or partial</u> – what kind of central heating is there? (Examples: gas-fired, solid fuel, electric storage heating, gas warm air). gas (LPG) fired central heating <u>If you have answered yes</u>, please answer the three questions below:</p>	Yes
	(i) When was your central heating system or partial central heating system installed? 2009	
	(ii) Do you have a maintenance contract for the central heating system? If you have answered yes, please give details of the company with which you have a maintenance contract:	No
	(iii) When was your maintenance agreement last renewed? (Please provide the month and year).	
8.	Energy Performance Certificate	
	Does your property have an Energy Performance Certificate which is less than 10 years old?	Yes
9.	Issues that may have affected your property	
a.	<p>Has there been any storm, flood, fire or other structural damage to your property while you have owned it? <u>If you have answered yes</u>, is the damage the subject of any outstanding insurance claim?</p>	No
b.	<p>Are you aware of the existence of asbestos in your property? <u>If you have answered yes</u>, please give details:</p>	No

property questionnaire

10.	Services																									
a. Please tick which services are connected to your property and give details of the supplier:																										
	<table border="1"> <thead> <tr> <th>Services</th> <th>Connected</th> <th>Supplier</th> </tr> </thead> <tbody> <tr> <td>Gas or liquid petroleum gas</td> <td style="text-align: center;">Yes</td> <td>Calor Gas</td> </tr> <tr> <td>Water mains or private water supply</td> <td style="text-align: center;">Yes</td> <td>Scottish Water</td> </tr> <tr> <td>Electricity</td> <td style="text-align: center;">Yes</td> <td>Octypus</td> </tr> <tr> <td>Mains drainage</td> <td></td> <td></td> </tr> <tr> <td>Telephone</td> <td style="text-align: center;">Yes</td> <td>Sky</td> </tr> <tr> <td>Cable TV or satellite</td> <td></td> <td></td> </tr> <tr> <td>Broadband</td> <td style="text-align: center;">Yes</td> <td>Sky - fibre</td> </tr> </tbody> </table>	Services	Connected	Supplier	Gas or liquid petroleum gas	Yes	Calor Gas	Water mains or private water supply	Yes	Scottish Water	Electricity	Yes	Octypus	Mains drainage			Telephone	Yes	Sky	Cable TV or satellite			Broadband	Yes	Sky - fibre	
Services	Connected	Supplier																								
Gas or liquid petroleum gas	Yes	Calor Gas																								
Water mains or private water supply	Yes	Scottish Water																								
Electricity	Yes	Octypus																								
Mains drainage																										
Telephone	Yes	Sky																								
Cable TV or satellite																										
Broadband	Yes	Sky - fibre																								
b.	Is there a septic tank system at your property? <u>If you have answered yes,</u> please answer the two questions below:	Yes																								
	(iv) Do you have appropriate consents for the discharge from your septic tank?	Yes																								
	(v) Do you have a maintenance contract for your septic tank? <u>If you have answered yes,</u> please give details of the company with which you have a maintenance contract:	No																								

property questionnaire

11.	Responsibilities for shared or common areas	
a.	<p>Are you aware of any responsibility to contribute to the cost of anything used jointly, such as the repair of a shared drive, private road, boundary, or garden area?</p> <p><u>If you have answered yes</u>, please give details: contribution of 3/10ths share of the cost of maintaining the private road leading from the public road to the house</p>	Yes
b.	<p>Is there a responsibility to contribute to repair and maintenance of the roof, common stairwell or other common areas?</p> <p><u>If you have answered yes</u>, please give details:</p>	No
c.	<p>Has there been any major repair or replacement of any part of the roof during the time you have owned the property?</p>	No
d.	<p>Do you have the right to walk over any of your neighbours' property — for example to put out your rubbish bin or to maintain your boundaries?</p> <p><u>If you have answered yes</u>, please give details:</p>	No
e.	<p>As far as you are aware, do any of your neighbours have the right to walk over your property, for example to put out their rubbish bin or to maintain their boundaries?</p> <p><u>If you have answered yes</u>, please give details:</p>	No
f.	<p>As far as you are aware, is there a public right of way across any part of your property? (public right of way is a way over which the public has a right to pass, whether or not the land is privately-owned.)</p> <p><u>If you have answered yes</u>, please give details:</p>	No
12.	Charges associated with your property	
a.	<p>Is there a factor or property manager for your property?</p> <p><u>If you have answered yes</u>, please provide the name and address, and give details of any deposit held and approximate charges:</p>	No

property questionnaire

--	--	--

property questionnaire

<p>b.</p>	<p>Is there a common buildings insurance policy?</p> <p>If you have answered yes, is the cost of the insurance included in your monthly/annual factor's charges?</p>	<p>No</p>
<p>c.</p>	<p>Please give details of any other charges you have to pay on a regular basis for the upkeep of common areas or repair works, for example to a residents' association, or maintenance or stair fund.</p>	
<p>13. Specialist works</p>		
<p>a.</p>	<p>As far as you are aware, has treatment of dry rot, wet rot, damp or any other specialist work ever been carried out to your property?</p> <p><u>If you have answered yes</u>, please say what the repairs were for, whether you carried out the repairs (and when) or if they were done before you bought the property.</p> <p>Woodworm treatment in eaves 2015 by Rentokil - 30 yr guarantee</p>	<p>Yes</p>
<p>b.</p>	<p>As far as you are aware, has any preventative work for dry rot, wet rot, or damp ever been carried out to your property?</p> <p><u>If you have answered yes</u>, please give details:</p>	<p>No</p>
<p>c.</p>	<p><u>If you have answered yes</u> to 13(a) or (b), do you have any guarantees relating to this work?</p> <p><u>If you have answered yes</u>, these guarantees will be needed by the purchaser and should be given to your solicitor as soon as possible for checking. If you do not have them yourself <u>please write below who has these documents</u> and your solicitor or estate agent will arrange for them to be obtained. You will also need to provide a description of the work carried out. This may be shown in the original estimate.</p> <p>per response to 13(A)</p> <p>Guarantees are held by:</p>	<p>Yes</p>

property questionnaire

14.	Guarantees	
a.	Are there any guarantees or warranties for any of the following:	
(i)	Electrical work	No
(ii)	Roofing	No
(iii)	Central heating	No
(iv)	National House Building Council (NHBC)	No
(v)	Damp course	No
(vi)	Any other work or installations? (for example, cavity wall insulation, underpinning, indemnity policy)	No
b.	<u>If you have answered 'yes' or 'with title deeds'</u> , please give details of the work or installations to which the guarantee(s) relate(s):	
c.	Are there any outstanding claims under any of the guarantees listed above? <u>If you have answered yes</u> , please give details:	No
15.	Boundaries	
	So far as you are aware, has any boundary of your property been moved in the last 10 years? If you have answered yes, please give details:	No

property questionnaire

16.	Notices that affect your property	
In the past three years have you ever received a notice:		
a.	advising that the owner of a neighbouring property has made a planning application?	No
b.	that affects your property in some other way?	No
c.	that requires you to do any maintenance, repairs or improvements to your property?	No
<u>If you have answered yes to any of a-c above, please give the notices to your solicitor or estate agent, including any notices which arrive at any time before the date of entry of the purchaser of your property.</u>		

Declaration by the seller(s)/or other authorised body or person(s)

I/We confirm that the information in this form is true and correct to the best of my/our knowledge and belief.

I ACCEPT

Name: Mr & Mrs Murdoch

Date: 21/05/2023

single survey

survey report on:

Property address	Upper Brandmyres Farmhouse . Banchory Devenick Aberdeen AB12 5XQ
Customer	Mr Campbell Murdoch & Mrs Jan Murdoch
Prepared by	Graham + Sibbald LLP

1. Information and scope of inspection

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. will not be inspected or reported on.

Description	One and a half storey detached house.
Accommodation	GROUND FLOOR: Entrance Porch; Hall; Living Room; Dining Kitchen; Utility; Bathroom; Dining Room; Sitting Room; Side Hall; Study; Bedroom One with Dressing Room and en suite Shower Room. FIRST FLOOR: Main Landing; Bedroom Two; Bedroom Three; Bedroom Four; Bathroom; Side Landing; Guest Bedroom Five with en suite Shower Room.
Gross internal floor area (m²)	316 or thereby
Neighbourhood and location	The property is located in Banchory Devenick area and lies in a rural location around three miles south west of Aberdeen city centre. A good range of facilities and amenities can be found within reasonable distance.

Age (year built)	Circa 1900.
-------------------------	-------------

Weather	Clear and dry.
----------------	----------------

Chimney stacks	<p>Chimney stacks are in concrete block and granite stonework construction with pointed and roughcast finishes, cement and metal flashings at the roof line and stone and precast concrete copes with clay pots bedded in cement haunching. The majority of the pots are sealed with ventilated caps with the exception of two which have metal cowls fitted.</p> <p>Visually inspected with the aid of binoculars where appropriate.</p>
-----------------------	---

Roofing including roof space	<p>Roof - pitched and incorporating pitched/hipped dormer projections all of which are overlaid in slate with clay tiled ridge, metal valleys and flashings and cement skew fillet flashings to wallheads. There is also a section of flat roof to the rear dormer projection which is overlaid in bituminous felt.</p> <p>Roof space - access hatches into eaves areas located in the landing airing cupboard and first floor bathroom. Head and shoulders inspections of this area indicated the roof to be framed in timber joists and rafters overlaid with timberboard sarking. Glass wool quilt insulation is installed.</p> <p>Sloping roofs were visually inspected with the aid of binoculars where appropriate.</p> <p>Flat roofs were visually inspected from vantage points within the property and where safe and reasonable to do so from a 3m ladder externally.</p> <p>Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defined as being from a 3m ladder within the property. If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so.</p>
-------------------------------------	--

Rainwater fittings	<p>Pvc gutters and downpipes discharging into the drainage system.</p> <p>Visually inspected with the aid of binoculars where appropriate.</p>
Main walls	<p>Main external walls to the older part of the house are of solid granite stonework and concrete block construction, pointed and roughcast externally. Walls to the side extension are of modern timber frame cavity construction having a structural timber frame inner leaf and outer leaf of roughcast concrete blockwork. Walls to the front porch and master bedroom en suite shower room are solid granite stonework with pointed external finish.</p> <p>Visually inspected with the aid of binoculars where appropriate. Foundations and concealed parts were not exposed or inspected.</p>
Windows, external doors and joinery	<p>Windows - mostly timber double; glazed sash and casement type plus timber double glazed casement window to the bathroom and velux double glazed roof lights to the upper floor. Entrance door - timber with double glazed inserts. Rear door - timber. French and patio doors - timber framed and double glazed. Roof fascias and soffits - timber.</p> <p>Internal and external doors were opened and closed where keys were available.</p> <p>Random windows were opened and closed where possible.</p> <p>Doors and windows were not forced open.</p>
External decorations	<p>Painted finishes to external timbers.</p> <p>Visually inspected.</p>
Conservatories / porches	<p>None</p>
Communal areas	<p>Shared tarred access road.</p> <p>Circulation areas visually inspected.</p>

Garages and permanent outbuildings	<p>Double car car port plus attached storage shed of timber construction beneath profile metal clad roofs.</p> <p>Visually inspected.</p>
Outside areas and boundaries	<p>The property occupies a good sized irregular shaped site with garden grounds laid on all sides which are landscaped and laid in grass with planted borders, gravelled areas and paved paths and patio. There are also stone walls which are part pointed located within the property. Parking is provided on a gravelled driveway. Boundaries are formed by hedging, post and wire fencing with timber gate.</p> <p>Visually inspected.</p>
Ceilings	<p>Plasterboard on timber framing.</p> <p>Visually inspected from floor level.</p>
Internal walls	<p>Plasterboard on timber framing and timber stud partitions.</p> <p>Visually inspected from floor level.</p> <p>Using a moisture meter, walls were randomly tested for dampness where considered appropriate.</p>
Floors including sub floors	<p>Ground floor - solid concrete, no sub floor area to inspect. First floor - suspended timber construction with timber joists overlaid with timber flooring.</p> <p>Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted.</p>

<p>Internal joinery and kitchen fittings</p>	<p>Internal joinery - panel and glazed timber doors set in timber frames with associated timber architraves and skirtings. Range of storage accommodation at ground and first floor levels. Timber staircases and handrails. Kitchen fittings - range of base, wall and tall fitted units with integrated appliances and polished granite worktop. Utility fittings - base unit with laminate worktop.</p> <p>Built-in cupboards were looked into but no stored items were moved.</p> <p>Kitchen units were visually inspected excluding appliances.</p>
<p>Chimney breasts and fireplaces</p>	<p>The chimney breasts are formed in granite stonework. In the living room there is wall mounted flush front wood-burning stove with slate hearth beneath. In the sitting room there is an open fireplace with metal wood-burning stove inserted within which sits on a brick hearth.</p> <p>Visually inspected. No testing of the flues or fittings was carried out.</p>
<p>Internal decorations</p>	<p>Internal decorations are of paper and paint finishes to walls, paint to ceilings and paint and varnish to internal timbers. There are areas of wall tiling in the utility, bathrooms and shower room.</p> <p>Visually inspected.</p>
<p>Cellars</p>	<p>None</p>
<p>Electricity</p>	<p>Mains supply with main consumer unit located in the utility room and meter located in external housing. Wiring is of pvc coated cabling to 13 amp sockets and switches.</p> <p>Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.</p>

Gas	<p>Liquid propane gas supply from tank located at the southern end of the site which is supplied by Calor Gas.</p> <p>Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.</p>
------------	---

Water, plumbing, bathroom fittings	<p>Water supply - mains supply. Plumbing and fittings are of pvc and copper piping. Kitchen fittings - composite sink and integrated dishwasher. Utility fittings - ceramic Belfast sink and plumbing for washing machine. Bathroom fittings - white five piece suite incorporating shower with mixer shower fitting. En suite shower room fittings - white two piece suite plus shower compartment with mixer shower. First floor bathroom fittings - white three piece suite with mixer shower over the bath. Guest bedroom en suite shower room fittings - white two piece suite plus shower compartment with mixer shower fitting.</p> <p>Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.</p> <p>It should be appreciated that concealed areas beneath and around baths and shower trays could not be inspected. Water spillage in these areas can result in dampness/decay and no comment can be made on inaccessible areas. Waterproof seals in sanitary areas should be checked and maintained on a regular basis.</p>
---	---

Heating and hot water	<p>Central heating - LPG fired wall mounted boiler located in the utility room which serves steel panel hot water radiators and towel rails. There is also electric under floor heating in the entrance vestibule and master bedroom en suite shower room and electric towel rail in the first floor bathroom.</p> <p>Hot water - the central heating boiler provides hot water through insulated tanks located in cupboards accessed off the main and side landings.</p> <p>Accessible parts of the system were visually inspected apart from communal systems, which were not inspected. No tests whatsoever were carried out to the system or appliances.</p>
------------------------------	--

Drainage	<p>Drainage discharges into a septic tank located at the corner of the adjoining field and assumed thereafter into a soakaway.</p> <p>Drainage covers etc were not lifted.</p> <p>Neither drains nor drainage systems were tested.</p>
-----------------	--

Fire, smoke and burglar alarms	<p>Smoke alarms installed.</p> <p>Visually inspected.</p> <p>No tests whatsoever were carried out to the system or appliances.</p> <p>New smoke alarm standards were introduced in Scotland in February 2022 and it is likely that some properties may require additional works to meet these standards. In instances where alarms are in place, no tests whatsoever have been carried out and we cannot confirm if the system complies with the most recent regulations. Any potential purchaser should satisfy themselves as to whether the current system meets with regulations or otherwise.</p>
---------------------------------------	---

Additional limits to inspection

The property was occupied, fully furnished and had fitted and fixed floor coverings throughout as well as stored items in cupboards which restricted the internal investigation.

No inspection for Japanese Knotweed was carried out and unless otherwise stated for the purpose of this report, it is assumed that there is no Japanese Knotweed within the boundaries of the property or neighbouring properties.

No access was gained to inspect any apex voids as there were no hatches. The flat roof section could not be inspected due to the height of the building.

It should be appreciated that the Home Report inspection is a non-disruptive visual inspection of the property as at the date of inspection and that we are unable to inspect parts of the property which are concealed or covered by floor coverings or contents in place at that time. Once vacant, defects may be apparent that could not be detected during our survey. Changing weather conditions can also affect aspects of the property which would not be apparent at the time of inspection.

Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

2. Condition

This section identifies problems and tells you about the urgency of any repairs by using one of the following three categories:

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

	Structural movement	
Repair category	1	
Notes	At the time of our inspection there was no evidence of significant structural movement noted to affect the property within the limits of our inspection.	
	Dampness, rot and infestation	
Repair category	1	
Notes	We are advised that woodworm treatment works were carried out in 2015 under cover of 30 year guarantee by Rentokil. All relevant scope of works and guarantee documentation should be transferred.	
	Chimney stacks	
Repair category	1	
Notes	Repair patched roughcast was noted on the central chimney stack.	
	Roofing including roof space	
Repair category	1	

Notes	<p>It would appear that the older section of the property roof has been completely re-slatted in the past with second-hand slates. Some of these were showing signs of age related deterioration/weathering and there are a number which are chipped. In addition there are a number of missing/broken slates and we are advised a slater has been engaged to attend to this. Slated roofs particularly of this age will require continued ongoing maintenance. Cement skew flashings at wallheads have been renewed in the past.</p> <p>At the older roof it was also noted timber sarking boards have been replaced, however original joists/rafters still exist. Woodworm treatment works were carried out to these in 2015.</p> <p>The flat section of roof to the dormer projection at the rear is of a type which will have a limited lifespan and can be prone to fail with out warning, at which time repair or replacement would be required.</p>
	<h2>Rainwater fittings</h2>
Repair category	1
Notes	At the time of our inspection there was no evidence of water staining on wall surfaces which would indicate leakage. It should be noted that it was not raining at the time of inspection.
	<h2>Main walls</h2>
Repair category	1
Notes	The main outer walls of the property generally appeared in fair order consistent with age.
	<h2>Windows, external doors and joinery</h2>
Repair category	1
Notes	These generally appeared in fair condition consistent with age.
	<h2>External decorations</h2>

Repair category	1
Notes	The external decorations are generally in good order. Regular repainting will be required if these areas are to be maintained in satisfactory condition.
	Conservatories / porches
Repair category	n/a
Notes	
	Communal areas
Repair category	1
Notes	Fair condition with some areas of normal wear/weathering noted. Periodic maintenance will be required.
	Garages and permanent outbuildings
Repair category	1
Notes	The outbuildings generally appear in fair condition consistent with age and usage.
	Outside areas and boundaries
Repair category	1
Notes	External grounds are generally well maintained. Areas of eroded/open pointing to sections of stone walls and the timber gate into the adjoining field where the septic tank is located is weathered/decayed.
	Ceilings
Repair category	1
Notes	Good condition.

	Internal walls	
Repair category	1	
Notes	Good condition.	
	Floors including sub-floors	
Repair category	1	
Notes	Level and firm under foot.	
	Internal joinery and kitchen fittings	
Repair category	1	
Notes	Good condition.	
	Chimney breasts and fireplaces	
Repair category	1	
Notes	No reportable defects. Flues will require to be checked and cleared periodically.	
	Internal decorations	
Repair category	1	
Notes	The property is in good decorative order throughout.	
	Cellars	
Repair category	n/a	
Notes		

	Electricity	
Repair category	1	
Notes	The Institution of Engineering and Technology recommends that inspections and testing are undertaken at least every ten years and on a change of occupancy. It should be appreciated that only the most recently constructed or re-wired properties will have installations which fully comply with IET regulations. A new consumer unit has been fitted in the recent past.	
	Gas	
Repair category	1	
Notes	In the interest of safety all gas appliances should be checked by a Gas Safe Registered Engineer.	
	Water, plumbing and bathroom fittings	
Repair category	1	
Notes	The plumbing and fittings appear of copper/pvc piping where seen and appeared in serviceable condition but was not tested. The sanitary fittings are of modern style and type.	
	Heating and hot water	
Repair category	1	
Notes	There is a gas fired central heating system and gas fittings and these should all be checked and serviced in the normal manner. In the interests of safety it would be prudent to have all gas appliances checked by a Gas Safe registered tradesman.	
	Drainage	

Repair category	1
Notes	Drainage, we understand is to an exclusive septic tank which lies outwith the boundary of the property. This was not checked or tested. There was no evidence of leakage.

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the previous comments for detailed information.

Structural movement	1
Dampness, rot and infestation	1
Chimney stacks	1
Roofing including roof space	1
Rainwater fittings	1
Main walls	1
Windows, external doors and joinery	1
External decorations	1
Conservatories / porches	n/a
Communal areas	1
Garages and permanent outbuildings	1
Outside areas and boundaries	1
Ceilings	1
Internal walls	1
Floors including sub-floors	1
Internal joinery and kitchen fittings	1
Chimney breasts and fireplaces	1
Internal decorations	1
Cellars	n/a
Electricity	1
Gas	1
Water, plumbing and bathroom fittings	1
Heating and hot water	1
Drainage	1

Category 3
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
Category 2
Repairs or replacement requiring future attention, but estimates are still advised.
Category 1
No immediate action or repair is needed.

Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability,

value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

3. Accessibility information

Guidance notes on accessibility information

Three steps or fewer to a main entrance door of the property: In flatted developments the ‘main entrance’ would be the flat’s own entrance door, not the external door to the communal stair. The ‘three steps or fewer’ are counted from external ground level to the flat’s entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres: For this purpose, ‘Unrestricted parking’ includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1. Which floor (s) is the living accommodation on?	Ground			
2. Are there three steps or fewer to a main entrance to a property?	Yes	X	No	
3. Is there a lift to the main entrance door of the property?	Yes		No	X
4. Are all door openings greater than 750mm?	Yes		No	X
5. Is there a toilet on the same level as the living room and kitchen?	Yes	X	No	
6. Is there a toilet on the same level as a bedroom?	Yes	X	No	
7. Are all rooms on the same level with no internal steps or stairs?	Yes		No	X
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes	X	No	

4. Valuation and conveyance issues

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated cost for insurance purposes.

Matters for a solicitor or licensed conveyancer

Woodworm treatment works were carried out in 2015 by Rentokil under cover of 30 year guarantee. All relevant documentation should be obtained, examined and thereafter retained for future reference.

The property has been altered and extended in the past and it should be confirmed these works were undertaken following receipt of and in accordance with appropriate Local Authority consents and Completion Certificate issued. All relevant documentation should be obtained, examined and thereafter retained for future reference.

The property is accessed over a shared road. We are advised that the subjects have a three tenths share liability for maintenance and this should be confirmed.

The liquid propane gas tank is supplied by Calor Gas and is not in the ownership of the subjects.

We are unaware of any adverse planning proposals affecting the subjects although this should be confirmed by obtaining a Property Enquiry Certificate.

Absolute Ownership assumed. We are unaware of any easements, servitudes or rights of way which may adversely affect the property. This point should be confirmed by reference to the Title Deeds.

It is recommended that where repairs, defects or maintenance items have been identified interested parties make appropriate enquiries in order to satisfy themselves of potential costs and the extent of the works required prior to submitting a legal offer to purchase.

Estimated reinstatement cost for insurance purposes

£1,050,000

The guidance figure is the estimate of costs for reinstating the subjects as at the date of inspection based on information provided by the Building Cost Information Service (BCIS). Building costs are currently increasing significantly above inflation due to increased demand and supply issues as a result of Brexit and the pandemic. It is recommended that this figure is kept under regular review to ensure that you have adequate insurance cover.

We are of the opinion that the subjects should be insured for buildings reinstatement purposes for a sum of **not less than £1,050,000 - ONE MILLION AND FIFTY THOUSAND POUNDS STERLING.**

Valuation and market comments	
--------------------------------------	--

£630,000	
-----------------	--

We are of the opinion that the market value of the subjects all as previously described and on a vacant possession basis would be fairly stated in the region of £630,000 - SIX HUNDRED AND THIRTY THOUSAND POUNDS STERLING.	
---	--

Our valuation reflects current market conditions relating to this area. We would assume that current trends will prevail at the ultimate date of disposal with no adverse or onerous matters being introduced into the market during the intervening period which would have a detrimental effect on price.

TERMS AND CONDITIONS OF SINGLE SURVEY

GENERAL

1.1 The Surveyors

The Seller has engaged the Surveyors to provide the Report and a Generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited energy company.

The Surveyors are authorised to provide a transcript or retype of the Generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by brokers and lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the Generic Mortgage Valuation Report and the Report. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the Generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and Generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors are required to amend the valuation in consequence of such information, they will issue an amended Report and Generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and Generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon residential property. *

If the Surveyors have had a previous business relationship within the past two years with the Seller or Seller's agent or relative to the Property, they will be obliged to indicate this in the adjacent box. Yes

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

* Which shall be in accordance with the current RICS Appraisal and Valuation Standards (The Red Book) and RICS Rules of Conduct.

1.2 The Report

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

Prior to the 1st of December 2008, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Report is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Report may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective Purchasers and the Purchaser and their respective professional advisors without the prior written consent of the Surveyors.

1.3 Liability

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and is prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would be (or, as the case might be, would have been) disclosed and delivered to:

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisors of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

Graham + Sibbald's total liability to the Client (and any third party relying upon this report) under this Agreement (including liability in contract, tort (including negligence), breach of statutory duty, or otherwise) shall be limited to the lower of the following : a) 25% of the valuation or b) £250,000.

1.4 Generic Mortgage Valuation Report

The Surveyors undertake to the Seller that they will prepare a Generic Mortgage Valuation Report, which will be issued along with the Report. It is the responsibility of the Seller to ensure that the Generic Mortgage Valuation Report is provided to every potential Purchaser.

1.5 Transcript Mortgage Valuation for Lending Purposes

The Surveyors undertake that on being asked to do so by a prospective Purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. ** The Transcript Mortgage Valuation Report for Lending Purposes will be prepared from information contained in the Report and the Generic Mortgage Valuation Report.

** Which shall be in accordance with the current RICS Appraisal and Valuation Standards (The Red Book) and RICS Rules of Conduct.

1.6 Intellectual Property

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

1.7 Payment

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports, including replacement home reports.

1.8 Cancellation

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the Property, the Surveyor concludes that it is of a type of construction of which the Surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the Property, the Surveyor concludes that the Property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the following paragraph of this section.

In the case of cancellation by the Seller, for whatsoever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

If our account details change, we will notify these to you by letter or face to face and never by email.

1.9 Precedence

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

1.10 Definitions

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a Surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format.
- the "Market Value" is the estimated amount for which the Property should exchange, on the date of valuation, between a willing seller and a willing buyer in an arms length transaction after proper marketing where the parties had each acted knowledgeably, prudently and without compulsion;
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property;
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in Part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property;
- the "Surveyors" are Graham + Sibbald LLP, a limited liability partnership incorporated in Scotland (Registered Number SO307130) and having its registered office address at Seabraes House, 18 Greenmarket, Dundee, DD1 4QB, of which the Surveyor is an employee, director or member (unless the Surveyor is not an employee, director or member, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report; and

- the "Energy Report" is the advice given by the accredited energy company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.
- "Data Protection Legislation" means the UK Data Protection Legislation and any other European Union legislation relating to personal data and all other legislation and regulatory requirements in force from time to time which apply to a party relating to the use of personal data (including, without limitation, the privacy of electronic communications).
- "UK Data Protection Legislation" means all applicable data protection and privacy legislation in force from time to time in the UK including the UK GDPR; the Data Protection Act 2018; the Privacy and Electronic Communications Directive 2002/58/EC (as updated by Directive 2009/136/EC) and the Privacy and Electronic Communications Regulations 2003 (SI 2003/2426) as amended.
- "UK GDPR" has the meaning given to it in section 3(10) (as supplemented by section 205(4)) of the Data Protection Act 2018.

DESCRIPTION OF THE REPORT

2.1 The Service

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by statute and this is in the format of the accredited energy company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

2.2 The Inspection

The inspection is a general surface examination of those parts of the Property which are accessible: in other words, **visible and readily available for examination from ground and floor levels without risk of causing damage to the Property or injury to the Surveyor.**

All references to visual inspection refer to an inspection from within the Property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the Property.

The inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the Report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Report of Property that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a register of asbestos and effective management plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

2.3 The Report

The Report will be prepared by the Surveyor who carried out the Property inspection and will describe various aspects of the Property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the Property will be concise and will be restricted to matters that could have a material affect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the Property is free of any other minor defects.

Throughout the Report the following repair categories will be used to give an overall opinion of the state of repair and condition of the Property:

2.3.1 Category 3:

Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the Property or cause a safety hazard. Estimates for repairs or replacement are needed now.

2.3.2 Category 2:

Repairs or replacement requiring future attention, but estimates are still advised.

2.3.3 Category 1:

No immediate action or repair is needed.

WARNING:

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the Property. This is particularly true during slow market conditions when the effect can be considerable. Parts of the Property which cannot be seen or accessed will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

2.4 Services

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

2.5 Accessibility

A section is included to help identify the basic information interested parties need to know to decide whether to view a Property.

2.6 Energy Report

A section is included that makes provision for an Energy Report, relative to the Property. The Surveyor will collect physical data from the Property and provide such data in a format required by an accredited Energy company. The Surveyor cannot of course accept liability for any advice given by the energy company.

2.7 Valuation & Conveyancer Issues

The last section of the Report contains matters considered relevant to the conveyancer (solicitor). It also contains the Surveyor's opinion both of the market value of the Property and of the re-instatement cost, as defined below.

“Market Value” is the estimated amount for which a property should exchange on the date of valuation within a willing buyer and willing seller in an arms-length transaction after proper marketing wherein the parties have each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of uninspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- There are no particularly troublesome or unusual legal restrictions.
- There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

“Re-instatement cost” is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a re-inspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.

It is assumed that any relevant Local Authority consents, warrants and completion certificates have been obtained where construction or alteration works have been undertaken.

This agreement and any dispute or claim arising out of or in connection with its subject matter shall be governed by and construed in accordance with the laws of Scotland, and the Scottish Courts will have exclusive jurisdiction to hear such claims.

DATA PROTECTION

Graham + Sibbald and the Client each undertake that:

- (a) they shall comply with all applicable requirements of the Data Protection Legislation, including without limitation any obligations relating to the rights of a data subject and the reporting of personal data breaches (all as defined in the UK GDPR); and
- (b) not do or omit to do anything which puts any other party to the Agreement in breach of the Data Protection Legislation.

Without prejudice to the generality of this clause, you shall ensure that you have all necessary appropriate consents and notices in place to enable lawful transfer of the personal data to Graham + Sibbald for the duration and purposes of this Agreement. You shall have liability for and shall indemnify Graham + Sibbald for any loss, liability, costs (including legal costs), damages, or expenses resulting from any breach by you of the Data Protection Legislation. For further information regarding how Graham + Sibbald processes personal data in relation to this Agreement, please see Graham + Sibbald's privacy notice at <https://www.g-s.co.uk/privacy-policy/>.
