SITUATION

South Bowhill Farm enjoys a highly scenic rural setting near Largoward and Peat Inn, a short distance to the south of Cupar in the county of Fife. Cupar (8 miles) and the nearby East Neuk villages provide excellent day-to-day facilities including supermarkets, local retailers and a number of agricultural merchants. The sought after university town of St Andrews, lying some 8 miles to the north east, offers more extensive services and facilities including national retailers, theatre, banks and professional services.

The city of Dundee, approximately 20 miles north, provides a comprehensive offering of city shops, services and amenities, as well as being home to Scott's RSS Discovery and the V&A museum. It also offers two universities, swimming pool, railway station and airport, providing daily flights to London. The city of Perth is under an hour's drive and provides a comprehensive range of services and facilities including national retailers, theatre, concert hall, swimming pool, museum as well as bus and train stations providing excellent transport networks.

Fife is renowned for its productive and fertile lands capable of producing high yields of an extensive range of crops and the area is well suited to both arable cropping and livestock units. The local area is well served by a wide variety of agricultural contactors, merchants and suppliers with a successful local machinery ring which can provide additional farming resources if required. The livestock market at Stirling, about 63 miles west has regular sales.

DESCRIPTION

South Bowhill Farm extends to about 47.95 acres (19.40 hectares) (including the steading and stackyard) and is made up of one single block of ground with an excellent range of modern sheds as well as a traditional steading and stackyard. The property offers significant potential for an equestrian buyer with 5 stables within the shed complex area, along with the other buildings and

land. The property could also be of interest as a small farm or from those looking to maximise the use of the outbuildings or to reactivate (or alter) the lapsed planning permission.

THE LAND

The land, lying largely to the south and west of the steading is classified principally Grade 3.2 and 4:2 by the James Hutton Institute and comprises easily worked ground in six enclosures predominantly contained by post and wire fencing. In recent years the ground has been used as rotational grass farmed by a neighbour, but it has historically grown a range of crops. The ground is predominately level with some gentle slopes rising from 186 metres above sea level in the south to 207 metres above sea level in the north-west. Access is either off the public road or via interconnected fields. There is a former water storage tank in the field the immediate south of the steading. The fields benefit from water troughs, with the exception of the bottom field, which has a burn running through it.

FARM BUILDINGS

The farm is approached by a shared access track, shared by two residential properties situated to the south-east of the farm buildings. South Bowhill Farm benefits from a traditional steading building and five modern agricultural sheds, suitable for smallholding and equestrian purposes, as summarised below:

Agricultural Shed 1 (37.5 m x 14.5 m)

Steel portal frame construction under a fibre cement roof, with box profile cladding and concrete floor.

Attached to this shed is a traditional building with 5 stables (14.5 m x 6.01m).

Agricultural Shed 2 (27.5 m x 18.0m)

Concrete frame construction with box profile sides and a box profile roof with concrete flooring.

Agricultural Shed 3 (22.4 m x 12.0 m)

Steel portal frame construction under fibre cement roof with box profile cladding and a concrete floor.

Stalls (22.4 m x 5.6 m)

Steel portal frame construction under box profile roof with concrete block to ½ height, box profile cladding and a concrete floor.

Agricultural Shed 4 (27.5 m x 12.0 m)

Steel portal frame construction under a fibre cement roof with concrete panels to ½ height, concrete block to 3 foot, tin cladding and with a concrete floor

ACCESS

Two residential houses (under separate ownership) have a right of access over the shared entrance to the steading to the public road to the east.

IACS

All the farmland is registered for IACS purposes and the farm code is 377/0062

LAPSED PLANNING PERMISSION

Planning permission was granted by Fife Council in November 2010 (08/00935/FULL) for the erection of a new agricultural workers dwellinghouse adjacent to South Bowhill Farm bungalow. NB A condition of the planning permission restricts the occupation of the dwellinghouse to a person solely or mainly, or last employed in the local area in agriculture.

ADDITIONAL GROUND

To the south-west of the land holding are two arable fields extending to circa 17 acres, which could be available on a lease to an eventual purchaser. Contact the selling agent for more information.
